

# FIXPIX™ – Certify and Enhance Yourself Don't Saturate

Introducing FIXPIX™, RiverSilica's flagship video products training programme for River Anchor™ System Integrators, Distributors and Customers. Designed to equip our partners with best-in-class training to sell and support to customers effectively our courses offer practical and theoretical insight into the complete video processing workflow as well as product-based training for the entire PIXFIX™ VUniverse suite of products.

## Explore our multi-tiered courses:

- **FIXPIX™ SD** – A comprehensive foundational course covering the basics of Video Engineering along with a specific line of RiverSilica products based on the market segment expertise chosen by the participant.
- **FIXPIX™ HD** – An intermediate course covering the advanced features and complex configuration parameters of our flagship PIXFIX™ VUniverse product line.
- **FIXPIX™ UHD** – Our most sophisticated course, it covers the PIXFIX™ VUniverse product line's advanced debugging features, how to integrate elements within the product line, and how to integrate with third party product lines.

## Course Details:

- **Duration:** 1-2 days.
- **Mode of Learning:** Offline classroom lectures combined with hands-on demonstrations and workshops
- **Certification:** All participants are assessed at the end of the course and receive official certification once cleared.
- **Dates & Scheduling:** Pre-fixed dates for the courses are periodically updated on our website ([www.riversilica.com](http://www.riversilica.com))

## Our courses are ideal for:

- **Customers** seeking a deeper insight into RiverSilica's product lines and unique approach towards optimising workflow.
- **River Anchor™ System Integrators and Distributors** seeking to upgrade their knowledge on RiverSilica's cutting-edge video processing technology and provide well-informed support and sales to Customers.
- **Engineers** across the video processing food chain seeking to strengthen their practical and theoretical knowledge to provide best-in-class services.

## Course charges:

- Every course is free of charge for RiverSilica's River Anchor™ Partners and RiverSilica's Customers.
- Non-sponsored participants within India would need to make arrangements for their travel and accommodation in Bangalore.
- Select River Anchor™ partners are sponsored periodically.
- Workshops will be conducted for international partners in their respective countries.
